

The Art Gallery at

Bunker Hill Community College

Dear Jimmy,

Thank You for your horrifyingly funny performance JIMMY TINGLE for PRESIDENT, *The Funniest Campaign in History* at our Halloween reception for ARTISTS on the STUMP, The Road to the White House 2012.

Your stage performance was the perfect complement to our visual arts exhibit staged just prior to the 2012 election! Our students, faculty and staff who were in attendance excitedly talked about your show in the days that followed leading up to the Nov. 6th election.

Thank you for being a part of our efforts to register voters, spotlight the candidates & issues, and get out the vote. Our audience enjoyed your serious consideration of the hot button issues and passion for our country provided through humor as only you can present it. Your uniquely Northeastern/Boston/ Cambridge brand of humor, delivery and take on the place we find the country in presently was a refreshing respite from the year of bipartisan bickering and divisiveness leading to the election and experienced in the preceding 4 years.

It was an evening of humor that made everyone think just a little more as we approached the voting booths! Thanks again for a great performance and being a part of what we do to spur our students on to civic responsibility; thinking and making decisions that affect not only their futures, but in the instance of this year's elections, our collective futures and that of the country.

Sincerely and In Art,

Laura
