Jimmy Tingle has performed at Boston College High School over the past several years with great success. He recently was the featured speaker at the Senior Mother & Son dinner with over 500 people in the audience. Jimmy had a great connection to everyone there and had us laughing out loud! His observations about life were spot on and very funny. We would highly recommend him for any High School looking to raise spirits, funds and awareness with some clean, funny and intelligent humor and entertainment.
