Recommendation for Jimmy Tingle

Jimmy Tingle and his “Humor for Humanity” tech team hosted our annual “CFO Palooza” event and created a transformative experience for our members. Our intent was to have Jimmy share some wisdom on how to bring humor to an executive presentation. What he delivered was so much more!

Jimmy coached several of our members in 1:1 sessions and totally transformed their communication style. The goal was not to turn them into standup comedians, but rather to help a group of fairly conservative executives discover their hidden sense of humor and use it in communications. It was an unforgettable experience for these members, and easily the most popular event we have had in years, with over 300 financial executives from across North America attending.

I would highly recommend comedian Jimmy Tingle to serve as a comic performer, emcee and/or Humor Coach to help make your organization's next event a most memorable one. If laughter is the best medicine, Jimmy Tingle is exactly what the doctor ordered.

A handwritten signature in black ink that reads "John McCullough". The signature is written in a cursive, flowing style.
